

Upgrade your email signatures into digital campaigns

The average employee sends **12,000 emails a year**. Many employee email signatures are often not brand consistent and look poor.

Rocketseed is innovative email signature software that transforms all employee emails into stunning, interactive branding campaigns that look professional, sell your business and become your most effective promotional platform. Turn on a **new marketing channel** for your brand.

- ✓ Works on mobile devices.
- ✓ Internal & external email signatures.
- ✓ Central control, staff can't edit or make mistakes.
- ✓ Automatically start/stop your marketing banners.
- ✓ Target your marketing banners based on your departments or customers and more.
- ✓ Get detailed reports on all clicks, plus Google Analytics integration.
- ✓ Standard with 24/7 technical support.

Rocketseed is compatible with:
